ProX XS-DJMV10A9 ATA Style Flight Road Case for Pioneer DJM-A9 DJM V10 DJ Mixer

Description

ProX **XS-V10A9** ATA Style Flight Road Case for **Pioneer DJM-A9 DJM V10** DJ Mixer. This case is designed to offer your DJ Mixer the highest level of protection, making it an essential accessory for those who are passionate about their gear and want to always keep it safe. Crafted with the highest quality materials and superior workmanship, this hard case is built to last and perform at the highest level every time.

The Build

All ProX cases are created utilizing CNC technology to assure that consistency is built within strict specifications and tolerances. ProX cases have been a family-owned business since 1984. And we strive to make the best product made to last a lifetime.

Gig Ready™ Series

ProX Gig-Ready™ Series cases are constructed from rugged 3/8" Plywood, reinforced with steel ball corners, spring-loaded recessed padded handles, and twist-locking latches. There is additional space for cables and small accessories at the rear underneath the controller for convenience. The removable front panel allows for easy access to the DJ controller's front control knobs, headphones, mic jacks, etc.

Everyday Protection

Most of our cases include our Signature Honeycomb Digital™ Surface Protected lamination. Made to look super-sleek with hexagon grids on all sides of the case in a variety of color options. This helps prevent minor to mild scratches during its lifetime.

Environment Safety

We strive to make a cleaner world by minimizing damage to the environment, so we switched the production of our high-density rubber foam inserts. Our rubber and foam padding contains 70% recycled materials, of that recycled content, most comes from recycled plastic bottles you throw out every day, and the remaining is from recycled post-industrial material.

Note: Any pictured device is shown for reference only and not included!

For the safety of your equipment, do not attempt to transport with any gear stored on the sliding shelf and be aware that the shelf can be removed when slid out to its furthest point.
