ProX XT-TC5LEDPA 10-13" LED Wall Mounting Plate to Extension 2" Pole Truss Clamp for Ground Stacking and Hanging.

Description

ProX XT-TC5LEDPA 10-13" Telescoping **LED Wall Mounting Plate to Extension 2"** Pole Truss Clamp for Ground Stacking and Hanging. XT-TC5LEDPA 10-13" LED Wall Mounting Plate with Extension 2" Pole Truss Clamp is a highly versatile accessory that is designed to facilitate the mounting of LED wall panels to trussing or ground support T-Bases [XT-GSWSB](#)

This extension pole boasts an offset of 10" at the starting point and can be fully extended up to 13" inches. Additionally, it is equipped with a multi-directional linking plate that can mount up to two to four panels per plate, depending on the dimensions of the LED panel.

Featuring a truss clamp that is compatible with F32, F34, F33, and 12" Bolt Truss Segments, the pole end of this extension can be utilized to mount LED panels vertically or horizontally with ease. Furthermore, the plate comes equipped with 8 CNC slotted long mounting holes that fit M8, M10, and M12 bolts, allowing for various configurations depending on your specific needs.

Overall, the XT-TC5LEDPA 10-13" LED Wall Mounting Plate with Extension 2" Pole Truss Clamp is a reliable and versatile solution that offers the flexibility and compatibility required to mount LED panels in a variety of configurations.

Features
