### ProX XT-PRERIG5FTBLK 5' FT Pre-Rig Truss Segment with Removable Rolling Base System

#### Description

ProX XT-PRERIG5FTBLK 5' Ft. **Pre-Rig Rectangular Truss Segment with Removable Rolling Base System** This Pre-Rig Rectangular Truss Segment is a durable and versatile trussing system designed for professional use in the entertainment industry. This truss segment is made of high-quality T6-6062 Aluminum Alloy which provides excellent strength and rigidity.

One of the standout features of this truss segment is its side-loading system. This system allows a single technician to easily prep a section of truss in the shop prior to shipping. This means that the truss can be quickly and efficiently assembled on-site, saving time and reducing labor costs.

The side-loading system also makes it easy to attach lighting and audio equipment to the truss. The system provides a secure and stable mounting point for equipment, ensuring that it stays firmly in place from transport to performances, and events.

Overall, this Pre-Rig Rectangular Truss Segment is an excellent choice for professional lighting designers, event planners, and musicians. With its durable construction, versatile design, and easy-to-use side-loading system, this truss segment is an essential tool for creating stunning visual displays and stage backdrops.
