ProX ATA Flight Case for Digital Audio Mixer Yamaha DM3 with Corner Wheels, DogHouse and Telescopic Handle

Description

The ProX Exclusive XZF-DM3DHW is Made in Poland by ZCase® for the Yamaha DM3 Console. These cases for digital audio consoles are designed and built to make transport and setup quick and very easy. A heavy plywood base between the case and the four heavy-duty locking casters protects the case and equipment during transport. The lower doors opening the storage area have magnetic catches to hold them open, during the movement of the console, to protect the doors. Each case has a large doghouse area with recessed latches on the cover as well as engraved wood side panels that are custom-fitted to retain the console firmly in the case.

The ZCase® cases are manufactured in Poland and are handcrafted for quality control and individually tested for smooth operation. For years Audio Engineers have faced the challenge of setting up heavy mixers, many times without adequate help. No other case matches the quality and operational convenience of the ZCase® from ProX Live Performance Gear®.
