### ProX X-TurboSound TBV-123-AN Flight Case for 2 TurboSound TBV-123-AN Line Array Speakers W-4 inch Casters

#### Description

The **X-TurboSound TBV-123-AN** ATA Flight Case is a professional touring speaker case that houses **2 - TurboSound TBV-123-AN or 2 JBL-VRX932LAP Speakers** and employs a laminated plywood that has a hard shell with internal padding to provide the best-customized protection for your investment. The case rests on 4 casters designed for easy traveling; it also has dishes on top to facilitate stacking with other flight cases. This case is interchangeable with [X-JBL-VRX932LAP](#)

This ProX ATA 300 Style Road/Flight case is manufactured with the **Honeycomb Digital™** laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

*All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.*

**Note: Any pictured device is shown for reference only and not included!**
