ProX X-LUMOTREERGB LumoTree™ 20-inch 72 SMD RGB LED Projector for LUMOSTAGE™ Acrylic Stage Platforms

Description

ProX **X-LUMOTREERGB** LumoTree™ 20-inch 72 SMD RGB LED Trio Projection for [LumoStage™](#) Acrylic Platforms is a triple directional LED strip fixture that utilizes three 24 SMD LED (**72 SMD Total**) strips per fixture. It illuminates and projects color lighting onto each side of the platform's acrylic panels when placed directly in the center.

It has **16 Million color variations** and effects that can be controlled via **Wireless Remote Control, DMX-512**, and Programmable **Auto Functions**. It has an **M10 Threaded** hole mount stands, clamps, and adapters. It can be linked with multiple units and securely bolted together in series through the machine drilled hole on each side.

Our LED platforms are programable and controlled by the included wireless remote control. When illuminated it can look like a luminous disco Saturday Night Fever or a brilliant all-white. You can have programmed lighting patterns in it as well. You are only limited by your imagination.

LED illuminated dance floors are very popular and a great way to make your event memorable and stand out. The LumoTree™ in conjunction with LUMOSTAGE™ provides an eye-catching aesthetic for DJs, Musicians, Gentlemen's Clubs, and more. It's also great for temporary or permanent installations in Banquets, Discos, Night Clubs, Lounges, Stage Productions, Set Design, and fashion shows.
