ProX T-4RSS 4U Space Amp Rack Mount ATA Style Flight Case 19 In. Depth

Description

The **T-4RSS 4 Space 4U** vertical amplifier rack case is the perfect storage solution for convenient security for a wide variety of amplifiers, pro DJ mixers, effects and any other standard 19" rack-mountable pro audio/DJ/Network gear. Built with a heavy-duty construction design and dual mounting rails your equipment won't dislodge or slip, and strain on the rack ears will be minimized. These professional-grade products also include external spring-loaded handles and butterfly twist latches with included padlocks for added security. The rubber feet at the base will ensure maximum stability when stacking multiple units. Built with a heavy-duty construction design and dual mounting rails your equipment won't dislodge or slip, and strain on the rack ears will be minimized. These professional-grade products also include external spring-loaded handles and butterfly twist latches with included padlocks for added security. The rubber feet at the base will ensure maximum stability when stacking multiple units.

Whether you're on the road, in the air, or in the club, you know that your gear will be safe and secure. This is because each and every ProX case is ruggedly tested under the most stringent conditions to meet our state-of-the-art quality control standards. These professional-grade products also include external spring-loaded handles and butterfly twist latches. The rubber feet at the base will ensure maximum stability when stacking multiple units. As part of the ProX Cases Premium Series line of products, the T-4RSS case is assembled with 3/8" plywood for premium protection. In addition to the heavy-duty design and convenient features of the T-4RSS, this case is a stylish, durable, and dependable product that will last a lifetime.

This **ProX ATA 300 Style Flight Case** is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
