### ProX XS-DDJSZWLTRB Flight Case For Pioneer DDJ-SZ DDJ-RZ Digital Controller W-Laptop Shelf & Wheels | Black on Red

#### Description

The **ProX XS-DDJSZWLTRB** Road case is designed by ProX Cases for the Pioneer SZ or RZ controllers and is made with the highest quality material and workmanship to give you the ultimate security for your controller. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time. It's equipped with a sliding laptop shelf.

The XS-DDJSZWLTRB is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and underneath the unit for convenience, as well as a removable front panel. The front removable panel allows for easy access to the 1U rack space, front controls, and headphone/mic jacks.

This ProX case is manufactured with the Honeycomb laminated surface design. Made with the super-sleek look of Honeycomb hexagon grids on all laminated outer shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb design helps prevent minor to mild scratches. The Honeycomb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

It's all about the options! This item is part of our black on red series, which features a red finish with black hardware for a sleek, professional look. There's no going back. This stunning black on red road case for your professional gear will always make a statement.

All ProX cases during the manufacturing process use CNC technology to assure all cases are consistently built with strict specifications that are required for the high-quality standards that ProX cases is known for since 1984.

For your safety and the safety of your equipment, do not attempt to transport or move with any gear stored on a sliding shelf or side shelf and be aware that the sliding shelf can be removed when slid out to its furthest point.
