ProX XS-DDJSZWBL MK2 Flight Case For Pioneer DDJ-SZ2 Digital Controller W-Wheels | Black on Black

Description

The **ProX XS-DDJSZWBL MK2** Road case is designed by ProX Cases for the Pioneer DDJ-SZ2 controller and is made with the highest quality material and workmanship to give you the ultimate security for your controller. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The **XS-DDJSZWBL MK2** features a removable laptop shelf that can be positioned to the left or right of the case while setting up for performance. This allows the entertainer to be open to the audience without the laptop shelf stuck between you and your dancefloor. The laptop shelf stores under the controller for easy transport to your next event.

The XS-DDJSZWBL MK2 is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, black trim on the black exterior, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and underneath the unit for convenience, as well as a removable front panel for easy access to the front controls and headphone/mic jacks.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!

For your safety and the safety of your equipment, do not attempt to transport or move with any gear stored on a sliding shelf or side shelf and be aware that the sliding shelf can be removed when slid out to its furthest point.
