ProX XS-PRIME2 LTBL ATA Flight Case For Denon PRIME 2 DJ Controller with Laptop Shelf 1U Rack Space - Black

Description

The **ProX XS-PRIME2 LTBL** provides the ultimate security for your standalone DJ system. It has a **Removable Sliding Laptop Shelf up top** and a **1U Rackspace below the device**. The case is constructed with a rugged and durable signature 3/8" Series Plywood, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and underneath the unit for convenience, as well as a removable front panel for you to access front input jacks easily and access the 1U Rackspace below. (**XS-RSS1U** Brackets Not Included)

This ProX ATA 300 Style Road/Flight case is manufactured with the **Honeycomb Digital™** laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

GIG READY
honeycomb digital™
SURFACE PROTECTED
Laminated 3/8" Plywood

Recessed Butterfly Twist Lockable Latches

Recessed Spring-Action Handles

Dual Anchor Rivets
