ProX X-RCF-TT25-AX2W Flight Case for Two RCF-TT25-A II High Definition Two-Way Speakers with 4 Inch Wheels

Description

The **ProX X-RCF-TT25-A II** 2 Speakers ATA Flight Case is a professional touring speaker case that fits **Two RCF TT25-A II Speakers**. This ProX speaker case employs a laminated plywood that has a hard shell, with **internal padding**, to provide the best-customized protection for your investment. The case rests on **4 casters** designed for easy traveling it also has dishes on top to facilitate stacking with other flight cases.

This ProX ATA 300 Style Road/Flight case is manufactured with the **Honeycomb Digital™** laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!

Internal Case Dimensions for each Speaker: 24.1 x 15 x 15 inch
