ProX T-MC Universal 10U 19" Topload Rack Mountable Live Sound Mixer Travel Hard Flight Case

Description

The ProX T-MC case is the perfect fit for smaller rack mountable mixers that need quality protection. The T-MC is designed to handle a wide variety of 19" rack mountable DJ mixers and DMX lighting controllers, or any other standard 19" rack gear. Fits up to 10U mixers.

The height at the front of the rack is 4.5"

The height in the rear of the rack is 6.5"

The cable storage 3.5"

This ProX ATA 300 Style Road/Flight case is manufactured with the **Honeycomb Digital™** laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
