ProX X-JBL-VRX918S/SP Flight Case for Two JBL VRX918S/SP Speakers

Description

The **ProX JBL-VRX918SP** ATA Style Flight/Road Case is a professional touring speaker case that houses Two JBL-VRX918SP speakers and employs a laminated plywood that has a hard shell with internal padding to provide the best-customized protection for your investment. The case rests on 4 casters designed for easy traveling; it also has dishes on top to facilitate stacking with other flight cases and is Truck Stack Ready.

This **ProX ATA 300 Style Flight Case** is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!

Features

ProX has been manufacturing road/flight cases since 1984 and are designed to protect your investment!

Customer Testimonials

Pro-X Live Performance Gear® recommended this case to my dealer, Washington Music Center, to fit my new RCF HDL 10a line array speakers. Exactly what I was looking for to transport and protect my investment. Wheels with locks are awesome and I know these cases will hold up for many, many years.
