ProX T-16RSPWDT 16U Vertical Shockproof Amp Rack Case W/Side Tables 20 In Depth & 4 Casters

Description

The **ProX T-16RSPWDT** 16U Space, Vertical, Shockproof amplifier rack case with 2 side tables, is the perfect storage solution for durable security for a wide variety of amplifiers, Pro DJ mixers, effects, and any other standard 19" width rack-mountable Pro Audio/DJ/Network gear. Built with heavy-duty construction design and dual mounting rails your equipment won't dislodge or slip, and strain on the rack ears will be minimized. These professional-grade products also include external spring-loaded handles and butterfly twist latches that can be padlocked for added security. The hard rubber feet and strong walls will ensure maximum stability when on tour and stacking multiple units.

This **ProX ATA 300 Style Flight Case** is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
