ProX T-CH17 360° Degree Rotating M10 Clamp with 180° Degree Half Conical Capacity 100 lbs

Description

ProX T-CH17 Aluminum 360° Degree Rotating Clamp with 180° Degree Half Conical. This 360° Rotating Pro Clamp with Adjustable 360-degree and 180-degree half-Conical meant for single tube truss is a versatile and reliable solution for adding a clamp to each end or when you need to make a junction without a standard junction box. With its wide range of adjustability, this clamp can be set at any angle from 0 to 180 degrees, providing you with ample options for truss clamping.

Crafted from heavy-duty aircraft-grade aluminum, this clamp offers exceptional durability, ensuring a long lifespan and reliable performance. Additionally, the use of cast aluminum results in a lightweight yet sturdy construction, making it easy to handle and use. The half-conical connector design ensures a secure and stable connection between the clamp and the trussing, providing maximum stability and support.

This product is equipped with an M10 threaded bolt attachment

Features
