ProX X-SPLSTBAR-5FT 5 Ft. Universal Light Bar Mounting System for Point Source PA Speakers with Fly-points

Description

The **ProX XF-SPLSTBAR-5FT** 5 Ft. Universal Light Bar Mounting System has sliding brackets to fit most point source PA speakers from 8" to 15" with FlyPoints on top. Mount up to four lights evenly distributed per speaker. Weight must be the same on both sides of the speaker. The X-SPLSTBAR-5FT comes with a pair of M10 and M12 Thumb Bolts to fit the appropriate threaded mounting points on the speakers.

Caution: Always use 2 bolts to attach the light bar and use parallel mounting points. Mount matching lights on EACH SIDE of the speaker for balance and safety. Use caution when raising the speaker and lights on the speaker stand as this will move the center of gravity higher than the speaker alone. Always spread your speaker to stand legs as far out as their design permits. Depending on the location of the Fly-points on your speakers it may also move the center of gravity front or back of center. Always check the balance of the assembly.
