ProX XC-PWC14-06 6 Ft. 14 AWG High Performance Link Grey Male to Blue Male for Power Connection compatible devices

Description

ProX XC-PWC14-06 6 Ft. 14 AWG High-Performance Grey Male to Blue Male Power Connection compatible devices

ProX cables are built with uncompromised quality with excellent performance at each connection - Instrument cables, Speaker cables, RCA cables, DMX cables, Power cables, and more. Our cables are made for professionals, by professionals.

The Power Connection Cable is the ideal power cable for powering many professional audio devices. The Power Connection

compatible connector is a 3-conductor, locking power connector which provides a safer power connection than the IEC 60320 C13/C14 connectors commonly found on consumer audio components, computers, power adapters, and other devices. The twist connector mates the ground contact before connecting the neutral and line contacts, ensuring an electrically safe connection.

All registered trademarks and trade names are properties of their respective owners and are used only for a clarification of the compatibility of our products with the products of the different manufacturers. Due to constant product improvements, the actual product appearance might differ from the shown images. Product images are for illustrative purposes only.
