ProX X-6UE 6U Deluxe 14" Deep 19" Width Amp Effects Rack Flight Hard Case

Description

The ProX X-6UE offers the best protection available for professional audio equipment and DJ gear.

This Road Gig Ready Flight Case is 14" depth and dual rack rails and makes it perfectly suited for rack-mountable effects units, filters and effects, networking, signal processors such as compressors and EQs, and much more!

This Rack Case is **6 space** vertical equal to **10.5"** interior Height. (Every single space is 1.75")

Whether you're on the road, in the air, or in the club, you know that your gear will be safe and secure. This is because each and every ProX case is ruggedly tested under the most stringent conditions to meet our state-of-the-art quality control standards. These professional-grade products also include external spring-loaded handles and butterfly twist latches. The rubber feet at the base will ensure maximum stability when stacking multiple units. As part of the ProX Cases Premium Series line of products, the **X-6UE** case is assembled with 1/4" plywood for premium protection. In addition to the heavy duty design and convenient features of the **X-6UE**, this case is coated with a beautiful black finish giving you a stylish, durable, and dependable product that will last a lifetime.

This ProX case is manufactured with the **ProX Distinctive Honeycomb** laminated surface design. Made with the super-sleek look of Honeycomb hexagon grids on all laminated outer shell surfaces, which gives the cases an almost alien look! Also as opposed to regular smooth laminated plywood cases from other manufacturers, the **ProX Honeycomb** design helps prevent minor to mild scratches. The Honeycomb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.
