ProX T-C17 Aluminum C-Clamp for 1.5 to 2" Truss Tube Capacity 330 lbs. Black Finish

Description

ProX T-C17 Aluminum **C-Clamp for 1" to 2" Truss Tube Capacity 330 lbs. Black Finish**. This Square Bolt "C" Clamp is designed for use with truss piping from 1" to 2" in diameter. With a maximum load capacity of 330 lbs, this clamp is a reliable and sturdy option for securely mounting stage lighting fixtures in any event or lighting production setting.

The clamp features a solid uni-body construction that firmly grips the truss piping, ensuring a stable and secure hold. Small grooves on the inner clamp further enhance grip and prevent movement, providing added peace of mind during use.

To further ensure the safety of your lighting fixtures, the T-C17-BLK is equipped with a spring washer that prevents slipping and movement of the fixture once compressed. This feature helps to maintain the integrity of your lighting setup, ensuring that your fixtures remain in place throughout your event or production.

The ProX T-C17-BLK Square Bolt "C" Clamp requires a wrench tool to tighten the pan bolt for clamping increments. This design feature ensures that the clamp is securely fastened to the truss piping, providing a stable and reliable mounting solution for your lighting fixtures.
