ProX T-C7 Aluminum Pro M10 Clamp with Half-Conical Connector for 2" Truss Tube Capacity 1102 lbs.

Description

ProX T-C7 Aluminum **Pro Clamp with Half-Conical Connector** for 2" Truss Tube **Capacity 1,102 lbs.** This Pro clamp with an attached half-conical connector for single-tube trussing is a professional and reliable solution for connecting single-tube trussing to your DJ or event trussing system. This clamp provides a secure connection point and allows you to add or expand your trussing system with ease.

Crafted with heavy-duty cast aluminum, our Pro clamps are designed to withstand the rigors of frequent use and provide excellent strength and durability. The half-conical connector is when you want to attach another segment without having to use a junction box or when you need to attach clamps to the ends of each connecting side of an F34, F32, or F31 Segment.

With a maximum safe working load of 1,100 lbs, this clamp offers ample support for a variety of trussing configurations, making it suitable for use in a range of applications, from small-scale events to large-scale productions.

This product is equipped with an M10 threaded bolt attachment
