ProX X-SCABLEHOOK10 Cable Management S-Hook for Side Stage Truss Systems 2" 50mm Clip Hook Pack of 10

Description

The **ProX X-SCABLEHOOK10** Cable S-Hook for Truss Systems Pack of 10 is designed to help manage and support multicable runs inside or outside of truss systems. The durable and lightweight reinforced molded plastic construction fits 1-1/2" to 2" tubes on common truss construction. A cable hook is a simple way to manage cables on truss rigging. Simply hook the ProX **X-SCABLEHOOK10** Cable S-Hooks just slip them over the truss chord or pipe and drop your power or data cables into the hook on the outside or use it to provide support for the cables on the inside. This cable hook fits trusses and scaffolding tubes with a diameter of 48 to 51mm. One or more cables can thus quickly be hung on a truss or scaffolding tube.

No more taping or Zip Ties to hold cables and it makes setup and teardown far easier! Keep your lighting wires clean and tidy!

Features

- **Designed to help manage and support multi-cable runs for truss systems**
- **Lightweight reinforced molded plastic construction**
- **Fits 2" tubing**
- **Keep your lighting wires clean and tidy!**
- **Use of cable hooks saves time and prevents the need to tape or bind cables.**
