ProX XTF-ATCMOB FANTEK® Universal Truss Bracket Adjustable T-Adapter for all Top Load Center Lifting Towers Black

Description

The telescopic lifting tower T 101 model is a tower designed to lift vertical loads while keeping its compact size, which allows an easy transportation. It is composed of three extensible steel profiles, lifted by a high-strength steel cable with grooved pulleys with SELOIL bearings. Automatic locking system comprised of self locking steel pins that fixes the tower to the desired height. Legs with non-slip rubber feet. The entire system is operated with a manual winch.
