### ProX XS-LCD4350WX2MK2 Flat Panel LCD/LED/Plasma Road Case Holds Two 43"-50" TVs Adjustable Case w/ 4 Inch Casters

#### Description

The **ProX XS-LCD4350WX2MK2** is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches. This Universal case has an adjustable sidewall to accommodate TWO screens from 43" up to 50" in size. Locking heavy-duty caster wheels help to secure stability while loading and unloading electronics. Additional EVA foam padding helps secure TV in place while protecting the device from bumps and scratches. Our TV road crates help keep Flat Panel Monitors, Plasma, LED, and LCD screens safe from damage during transportation. For the safety of your equipment, do not attempt to transport with any gear not properly loaded into the case. Handles are retractable for better space utilization and loading. Exercise care when loading, unloading, and rolling cases.

This case supports multiple sized TV's from **43" Models** 38"W x 22"H to **50" Model** 45.5"W x 27"H.

This **ProX ATA 300 Style Flight Case** is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

**Note:** All cases from ProX are designed to protect your equipment from damage during normal use and handling.

#### Features

All ProX cases during the manufacturing process use CNC technology to assure all cases are consistently built with strict specifications that are required for the high-quality standards that ProX cases is known for since 1984.
