ProX X-EV-EVOLVE50X2W Flight Case for 2 EV Evolve 50 Compact Array Systems W/Wheels ATA Style

Description

The **ProX X-EV-EVOLVE50X2W** is designed specifically to house and protect (2) of Electro-voice EVOLVE 50 Column Array/Subwoofer speakers. This professional speaker case employs a 3/8" laminated plywood that has a hard shell with internal impact resistant padding to provide the best protection for your investment. No matter where you take your speakers you can have peace of mind, nothing will get damaged during transit or in storage. **ProX Design Copyright © 2018**

This particular case rests on four high quality 4" casters designed for easy traveling, it also comes equipped caster dishes on top to facilitate stacking with other flight cases. The ProX X-EV-EVOLVE50X2W is the perfect case for AV production companies, touring

facilitate stacking with other flight cases. The ProX ATA 300 Style Road/Flight case is the perfect case for AV production companies, touring bands, entertainment groups, mobile DJ's or anyone who owns EV Evolve 50 speakers. Protect your investment with ProX Cases.

This ProX ATA 300 Style Road/Flight case is manufactured with the **Honeycomb Digital™** laminated surface design on 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
