ProX XS-DJMS9 Flight Case for Pioneer DJM-S9 & DJM-S7 Mixer

Description

The **ProX XS-DJMS9** ATA Style Flight Hard case designed for **Pioneer DJM-S9 & Pioneer DJM-S7** and is made with the highest quality material and workmanship to give you the ultimate security for your **Pioneer DJM-S9 & Pioneer DJM-S7** Mixer. If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The **XS-DJMS9** is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches. There is additional space for cables and small accessories in the back and underneath the unit for convenience, as well as a removable front panel for you to access front input jacks easily. The front removable panel allows for easy access to the front controls and headphone/mic jacks.

This ProX ATA 300 Style Road/Flight case is manufactured with the Honeycomb Digital™ laminated surface Design. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honeycomb Digital™ design helps prevent minor to mild scratches.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!
