ProX XS-XDJXZSZ WLTBL Flight Case for Pioneer XDJ-XZ DDJ-SZ2 Digital Controller W-Laptop Shelf & Wheels - Black on Black

Description

The **ProX XS-XDJXZ WLT Case** provides excellent protection for the **Pioneer XDJ-XZ** and ease of use for you. The fact that the XDJ

The ProX ATA 300 Case provides excellent protection for the Pioneer XDJ-XZ and ease of use for you. The fact that the XDJ will work with Serato and Rekordbox on a laptop is great, so we added a sliding laptop shelf for easy use! There is additional space for cables and small accessories in the back and underneath the unit for convenience, and a removable front panel to access front input jacks easily and access the front 1U rack space.

This ProX **ATA 300 Case** is manufactured with the **Honeycomb Digital™** Protective Finish on Laminated 3/8" plywood. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all shell surfaces, sets ProX apart from other manufacturers. The Honeycomb Digital™ design helps prevent minor to mild scratches. This unique design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases use CNC technology, during the manufacturing process, to assure that cases are consistently built with strict specifications and tolerances that are required for the high-quality standards that ProX cases have been known for since 1984.

Note: Any pictured device is shown for reference only and not included!

For your safety, and the safety of your equipment, do not attempt to transport or move with any gear stored on a sliding shelf or side shelf and be aware that the sliding shelf can be removed when slid out to its furthest point.
