ProX XS-LCD7080W LED LCD Plasma TV Single 70"-80" Adjustable Flight Road Case w 4" Wheels

Description

The ProX TV road cases help keep Plasma, LED, and LCD screens safe from damage during transportation.

This Universal case has an adjustable side wall to accommodate a single screen from 70" up to 80" in size. Locking caster wheels help to secure stability while loading and unloading electronics. Additional EVA foam padding helps secure TV in place while protecting the device from bumps and scratches.

Handles are retractable for effortless LCD caddy maneuvering.

Note: All cases from ProX are designed to protect your equipment from damage from normal use and handling.

Features

If you have a passion for your gear and want to keep it safe at all times, this case will perform at the highest level every time.

The XS-LCD7080W is constructed with our rugged signature 3/8" Gig-Ready Series Plywood, durable rubber wheels, reinforced steel ball corners, as well as recessed steel padded handles and latches.

This ProX case is manufactured with our exclusive Honey Comb laminated surface Design. Made with the super-sleek look of Honey Comb hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also, as opposed to regular laminated plywood cases from other manufacturers, the ProX Honey Comb design helps prevent minor to mild scratches. The Honey Comb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

All ProX cases during the manufacturing process use CNC technology to assure all cases are consistently built with strict specifications that are required for the high-quality standards that ProX cases is known for since 1984.

For the safety of your equipment, do not attempt to transport with any gear not properly loaded into the case.

* ProX Goes Green: The durable hard rubber foams used in our cases contain 70% recycled content. Of that 70%, 80% of it comes from recycled plastic bottles and the remaining 20% from the recycled post-industrial material. At ProX we strive to make the world a better place!
