### ProX XS-IDJPRO ProX fits Digital Controller Flight case made for Numark iDJ PRO

#### Description

This XS-IDJPRO ATA style gig ready flight case is **designed to protect the Numark iDJ PRO controller**, and it does the job well. The case is constructed with a rugged and durable Signature 3/8" Series Plywood, reinforced **steel ball corners**, as well as recessed **steel padded handles and latches**. There is additional space for cables and small accessories in the back of the unit for convenience, as well as a removable front panel for easy access to controls.

This ProX Digital Media controller case is manufactured with the Honey Comb laminated surface Design. Made with the super-sleek look of Honey Comb hexagon grids on all shell surfaces, which gives the cases an almost alien look! Also as opposed to regular laminated plywood cases from other manufacturers, the ProX Honey Comb design helps prevent minor to mild scratches. The Honey Comb Digital line design was inspired by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.

\* ProX Goes Green: The durable hard rubber foams used in our cases contain 70% recycled content. Of that 70%, 80% of it comes from recycled plastic bottles and the remaining 20% from recycled post-industrial material. At ProX we strive to make the world a better place!
