ProX X-SimpleSpotPack SimpleSpot™ Six Cordless Battery Powered PinSpots W/Case, Charger & Color Gel Filters

Description

The **ProX X-SimpleSpotPack** is part of our high-quality intelligent lighting products. The SimpleSpot™ is a bright (3 Watt), **battery-powered**, LED pin spot. Each X-SimpleSpotPack contains 6 SimpleSpot 6000k Cool White SimpleSpot™. Each unit will operate for up to 6 hours on a full charge. The 2 included IRC Remote Controls will enable On/Off, Strobe, Speed, Auto and Up/Down Dimmer. Each unit projects a cool white beam and gel filters are included for each light consisting of Red, Green, Blue, Warm White, Amber, and White Frost. The package of 6 comes with a fabric carrying bag with cut foam that holds the charging base and all six lights plus

additional storage.

Easy Two Way Mounting

The SimpleSpot™ is easily mounted to drop ceiling supports or can be mounted to any ferrous metal surface. It provides a fast and easy setup for weddings and special events. The SimpleSpot™ is most commonly used for illuminating table centerpieces, accent décor, cakes and a variety of applications when you need to highlight a specific object or area! The charging base allows you to recharge up to six (6) LED units at a time. A full charge can take up to 4 hours. The red indicator flashes during charge then turn green when fully charged.

IMPORTANT NOTE: When you initially receive your SimpleSpots, be sure to charge and fully discharge all the lights 4 to 6 times before the first use at an event. This allows the chemicals in the batteries to stabilize and produce the best run time. Also, if you turn them down just 5 or 6 clicks below 100% you will not notice a difference in brightness, but you will get a longer run time from a full charge. By taking these steps you should consistently get 6 hour run times.

DO NOT CHARGE WITH LID CLOSED!

Features

- **Single 3W Single Cool White Cree LED Per Unit**
- **Output Intensity: 3200+ Lux at 6.5 feet**
- **Unit Power: 12 VDC Rechargeable Battery @ 6000mAh**
- **Input Power: 100-240V, 50-60HZ AC**
