ProX XSF-4x4 Square Deck 4x4FT Stage Platform - Plywood Honeycomb Digital™ Non-Skid Deck

Description

The **ProX XSF-4x4** Portable StageX series **4' x 4'** Non-skid Industrial finish surface Stage is designed to provide a stage unit that is extremely versatile and easy to assemble. The ProX StageX is the best solution for anyone looking for durable, dependable and affordable stages. The **StageX™** series is constructed from an all-aluminum extruded frame, The Surface is constructed with 5/8 inch high-density plywood with Honeycomb Digital™ non-skid laminate and 6061T6 aluminum profile on all sides and is able to support up to 185 lbs./sq. ft. (900kg/sq. meter). Each 4 x 4 stage is equipped with an integrated platform interlocking system; the locks are built into the frame for quick connecting of multiple stages to one another and also allows easy set-up of risers. The **StageX™ Portable Stages** are strong, easy to set-up, have a professional appearance.

A sleek laminated **Honeycomb Digital™** pattern is integrated into the surface to provide added non-skid protection, yet it's still smooth enough to dance on. It is rugged enough to withstand various types of uses including chair risers, tent flooring, fashion runways/catwalks, sound wings/troughs, orchestra pit covers, ceremony risers, etc. Made with the super-sleek look of Honeycomb Digital™ hexagon grids on all top surfaces, which gives the staging an almost alien look! Also as opposed to regular laminated stage decks from other manufacturers, the **ProX Honeycomb Digital™** design helps prevent minor to mild scratches. The Honeycomb Digital™ line design was inspired in 2009 by the design of New York City Street Manhole covers which are made to handle rough and tough everyday punishment.
