ProX X-T900 TWISTER 900 Watt Water Based Fog Machine

Description

The versatile Twister 900 is equipped with the most sophisticated features including: advanced cast aluminum heater, high precision PCB design. The quiet high-quality pump, when combined with our ultra-efficient heater technology, contributes to the incredibly low fluid consumption of less than one liter per two hours of continuous fogging (at 30% output). For a small degree of fine-tuning, and a perfect haze of fine particles is achieved and minimal residue ensures long-term reliability of sensitive lighting equipment. The Twister 900 is preferred by many top stage and studio professionals.

For party professionals, the question is always about value. How to get the most out of the equipment you have while taking every night to the next level. Our fog fluid is here to help! With 3 scented flavors (and plain unscented) you have flexible control over the audience's experience at an unbeatable price. Our top-quality fog fluid is the choice for pros who need value and performance!
