### ProX XT-LA567 Telescopic C-Shape Bar Support mount fits Crank Stand Lifter for Small Line Array Speakers Max Load 150 lbs

#### Description

The **ProX Exclusive XT-LA567** is a Telescopic C-Shape Support for Small Line Array Systems for mounting on a tripod crank stand, speaker stand or pole for mounting on a subwoofer. The bracket is designed to safely withstand a load not exceeding 150 lbs. It is designed to provide mounting flexibility of line array speakers in an easy to set up an indoor or outdoor audio rig. The XT-LA567 is usable on any crank stand or tripod speaker stand or pole (Universal Fit).

Manufactured with heavy-duty steel and black powder coated for long life. With safety and style in mind, the XT-LA567 speaker mount lets you streamline your audio system for a clean professional look. The stand is equipped with two locking wing studs to lock to the pole and has multiple adjustments for total height/spread depending on your speaker sizes and your individual needs.

Holds Line array speakers up to 150 Lbs total weight, such as:

RCF HDL6-A  
RCF HDL26-A  
FBT MITUS206 LA  
FBT MITUS 206L  
and others.

**Crank Stand NOT Included, available separately!**

**Caution:** Always ensure that the stand being used is leveled and positioned on a hard stable surface, in a suitable location, on firm ground/surface and clear of overhead obstacles. Always Stabilize the legs before lifting the speakers into position. When outdoors, secure the tower with braces or cables, in case of wind.
